## WEDDING PHOTOGRAPHY

A wedding is the ceremony in which two people are united in marriage. Wedding traditions and customs vary greatly between cultures, ethnic groups, religions, countries, and social classes. Most wedding ceremonies involve an exchange of wedding vows by the couple, presentation of a gift, and a public proclamation of marriage by an authority figure or leader. Special wedding garments are often worn, and the ceremony is sometimes followed by a wedding reception. Music, poetry, prayers or readings from religious texts or literature are also commonly incorporated into the ceremony. It is a time to celebrate love, joy, friendship, and family, Golden Camera will work hard to make sure your photos and video express these moments.

WEDDING  
DETAILS

"Anyone can love a thing because. That's as easy as putting a penny in your pocket. But to love something despite. To know the flaws and love them too. That is rare and pure and perfect."

*Kvothe, from The Wise Man's Fear*

"The beauty of a woman must be seen from  
in her eyes, because that is the doorway to  
her heart, the place where love resides."

*Audrey Hepburn*

"I'm so in love with you and hope you know, darling your love is worth it's weight in gold. We've come so far my dear, look how we've grown. I want to stay with you until we're grey and old."

*James Arthur*

## PORTRAIT PHOTOGRAPHY

Our attention is drawn to the diverse gamut of emotions a person is capable of evoking with just a glance or with their body language. From warm and intimate to distant and reserved, the range and degree of human feeling that can be communicated in a single frame inspires us. Uncovering these true moments keeps us curious and eager to connect with the subjects and the larger world around us.

### BABY PHOTOGRAPHY

Remember, these are tiny infants who have not been out in the world for too long. They have little to no control over their own bodies and have fragile skulls and bones. It's not uncommon for them to be propped up on tiny bassinets a couple of feet above the ground, but the props should always be weighed and tested so they won't tip over or fall once the baby is placed on it.
